City Council OKs Budget

At the regular meeting held a week ago Tuesday, the Grayling City Council approved a general operating budget of \$235,446 for the 1971-72 fiscal year beginning in July.

According to City Manager William Valusek, the budget represents a 20 per cent increase over the current budget and provides for an employee retirement system and a life insurance program.

The budget reflects a 7 per cent increase in employee salaries. In addition, it includes replacement of much of the public works equipment lost in the city garage fire last February, Valusek stated.

The general tax will remain the same as 1970, a rate of 19.5 mills, primarily due to an increase in valuation.

An additional 2.26 mills for sewage improvements and a lagoon system, approved by the voters last year, will be spread on the July 1 tax billings.

Valusek said, the water and sewer budget, separate from the general budget, in the amount of \$82,800, is 10 per cent less than for the current year. Part of the reduction is the result of the sewage lagoon, now under construction, and the proposed abandonment of the present sewage plant on the AuSable River, this summer.

A BOY THAT MISUNDERSTOOD

As a boy, I was always disturbed by this Biblical passage in Matthew: "For I have come to set a man against his father and a daughter against her mother . . . He who loves father and mother more than me is not worthy of me."

In those days of innocence, it seemed that my greatest love should go to Mother and Father. They gave me life, love and visible physical needs

that seemed all-important.

But what I did not understand was that this life of mine came directly from God through my parents. I had tried to separate God's love from the love of Mother and Father. It was through Him that they received the great gift of human love. And because a mother has God's love implanted in her heart, she will instinctively love me. Matthew was emphasizing the fact that God's love must come first and that human love will then follow in its proper perspective.

Take your child with you to church and church school so that both may gain a better understanding of God's will. One who really loves God supremely will invariably develop a deeper love for family, friends and neighbors.

Summertime

Only a very stodgy adult with a very short memory can fail to have a feeling of kinship with the young people of the nation now looking forward to the eminent closure of school for the Summer. There is something timeless about the joyous freedom of the first days of Summer Vacation.

American youngsters are doubly blessed. In spite of all the clamor and confusion over what is being done wrong in this country, we still have a great land. And millions of youngsters will see it this Summer as they travel with their parents — camping, fishing or just looking. Freedom from the discipline of the schoolroom will give millions of youngsters a chance to realize, along with their folks, that there are still wide open spaces, still plenty of blue sky and quite a few unpolluted streams and lakes, as well as mountains and forests. And then in thousands of communities across the country, there is the tranquility of the family backyard, and perhaps even an old-fashioned hammock under a shade tree.

Incidentally, as we really begin to appreciate the good Earth of these United States in the early days of Summer, it is well to remember that June 14 is Flag Day. A little show of patriotism never hurt anyone. Displaying our Flag on appropriate occasions such as Flag Day is one way in which we can express our awareness of the many freedoms and privileges that we all enjoy in greater measure than most of us ever realize. Freedom from the schoolroom may be short-lived, but our other freedoms, as symbolized by our Flag, can be perpetual. We value them and guard them well.

\$176* less than Nova 2 door

The little carefree car. Pinto is sized small, like the economy import, but it's bigger on value. And price is only the beginning. Pinto calls for only half as many oil changes as VW. One-sixth the chassis lube. So easy to service that you can do most routine maintenance yourself. And Pinto is bigger on performance. It has a 75-hp engine that has averaged over 25 mpg in simulated city/suburban driving. Sports-car type rack-and-pinion steering. Wider stance and lower silhouette.

The Simple Machine. Maverick's price makes it simpler to own than Nova. But that's not the only reason we call it the Simple Machine. Maverick's simple to drive and park because of its shorter wheelbase and smaller turning circle. Simple to service because it's been designed that way. Maverick offers a 4-door sedan for a low price of \$2235* (\$145** less than Nova 4 door). Or choose the sporty Grabber model. A choice of an economical V-8 and three thrifty Sixes.

*Ford's suggested retail price for Pinto and Maverick. However, the models shown are equipped with accent group (Pinto \$60; Maverick \$52) and white sidewall tires (\$29). Destination charges. Dealer preparation charges (if any), state and local taxes are extra.

**Comparison based on manufacturers' suggested retail prices for closest comparable body styles of lowest priced models, comparably equipped.

Scholle Bows Out

By Richard L. Milliman

We see by the papers where Gus Scholle is planning to step down as president of the Michigan AFL-CIO.

And thus draws to a close probably the most momentous era in Michigan politics.

A glass worker by original trade, Scholle for the past quarter century has personified the combination of labor leader and political leader which in Michigan put new vitality into the two-party system and threatened to make Michigan a one-party Democratic state.

Latter-day political watchers in Michigan may have missed some of the significance of Scholle's role in Michigan politics.

Part of this is because for the past 20 years, strong Democratic efforts have always been firmly anchored by a large, almost monolithic organized labor political effort in the Wayne county area, so strong that it has overbalanced concentrated Republican strengths outside of Wayne county.

The marriage of organized labor and the Democratic party in Michigan was no accident. It came by design. And one of the brokers of that marriage, back in the early 1950s, was Gus Scholle, as head of the powerful AFL-CIO state organization.

Scholle and his forces made no bones about what they were after. They

went after Democratic control of state offices, and they got them.

They threw aside the old Samuel Gompers approach for labor in politics, which dictated support of the man they could trust, regardless of party; instead Scholle led his union forces lock, stock and barrel into the Democratic party, and for all practical purposes, controlled it.

Scholle has even been quoted as saying that he would never vote for a Republican. And Gus Scholle being the man he is, he probably hasn't yet.

The glamour man in the Democratic - labor heyday, or course, was G. Mennen Williams, who was elected to six consecutive two-year terms as governor, always with strong labor support.

Both Scholle and Williams have always maintained that Scholle did not dictate to Williams, and I for one would believe it. But both have pointed out that their social and political aims were very close to each other, so they usually came out in the same corner; and that was obvious through 12 years of Gov. Williams in the front office.

Several Republican candidates have run for statewide office against Gus Scholle, although Scholle himself has never been on a statewide ballot. The Republicans usually found it was a poor tactic; Republican politicians may have been incensed

about Scholle's role in State politics, but the voters never got too concerned.

Another favorite Scholle pursuit--in addition to a strong Democratic party, with strong union voice within it--was the one man-one vote doctrine for legislative bodies. He fought long and hard, through both legislative halls and courtrooms, and finally found his view upheld by the United States Supreme Court. At times it was a lonely fight, but now one man-one vote is the law of the land, as the highest court in the land has interpreted it.

Besides the atrophy that naturally accompanies continued success, Scholle's perceptible influence has lessened somewhat in recent years when the UAW pulled out of the national AFL-CIO, and a half-million Michigan members left Scholle's state AFL-CIO. The two groups worked closely together, to be sure, but they were two groups now, not one.

Maybe it's time for Gus Scholle to leave the Michigan political scene. At 67, he's obviously mellowing. He was even quoted recently as saying: "All Republicans are not bad. There are some... outstanding people among them."

Now, to the old Gus Scholle, back in the 1950s and 1960s, such an admission would have been heresy.

For And About Teenagers

THE WEEK'S LETTER: "What the matter with me? I am 16 years old and (pardon my expression) hungry as ever. I mean, I have to get myself a guy. The problem is, no one asks me out. I don't have B.O. or anything. I have been particular about anyone I go out with, but now I'm willing to go out with anyone who might ask me. I'm desperate, because I have nothing to look forward to on Fridays, Saturdays or Sundays. My life is B-L-A-T-E. I talk to everyone, so it's not that I am a snob. I'd like to know what is wrong. Can you give me suggestions. I'd sure like to have someone."

OUR REPLY: The first suggestion: don't get desperate. Keep your cool. Give yourself a personality check. You say you talk to everyone. To EVERYONE? Do you perhaps talk too much? Do you have some hobby or special interest? You can score high with many boys if you like the same things they like--sports, music, whatever. But, don't get desperate. The ones you get when you're desperate, few other girls would have. Wait for a good one.

If you have a teenage problem you want to discuss or an observation to make, address your letter to FOR AND ABOUT TEENAGERS, COMMUNITY AND SUBURBAN PRESS SERVICE, FRANKFORT, KY.

Thought For Food

For a creamy garlic dip, blend 1 cup dairy sour cream and 1/2 teaspoon garlic salt. Cover tightly and refrigerate until ready to serve. Yields 1 cup.

Here's another popular dip. Blend 1/2 cup prepared mustard, 1/2 cup salad dressing, 1 teaspoon prepared horseradish. Cover tightly and refrigerate until ready to serve. Yields 3/4 cup.

Combine 1 cup shredded sharp cheese, 1/2 cup mayonnaise, and 2 teaspoons prepared mustard. Spread cheese mixture generously on 4 frankfurter rolls. Broil slowly until hot and melted. Top each bun with 1 broiled frankfurter. Makes 4 sandwiches.

Want to please the kids? Make your own sodas with vanilla ice cream, milk and root beer. For patio entertaining, here's a savory sardine canape. Open and drain can of Norway sardines. Mash the sardines and blend with a little horseradish and mayonnaise. Spread on toast strips of cocktail crackers. Decorate with radish rosette or sprig of parsley. Refrigerate until party time.

Explorers To Search Underground World

UNDERWATER EXPLORATION COMPANY research team that will explore the dark, mysterious caverns, abandoned mining sites and ghost towns during Project Groundhog—a scientific expedition scheduled for July-August, 71 into remote areas of Colorado. Members of the operation (back row, L-R) are Virginia M. Parker, director of research; Mary Mutart, communications; (front row, L-R) Albert W. Brownes, staff photographer; William Mutart, project engineer; and Richard S. Brownes, operations commander.

By Cmdr. Richard S. Brownes

Adventure with a capital "A" is the best way to describe Project Groundhog, an expedition scheduled by Underwater Exploration Company of St. Clair Shores, Michigan for hazardous, mountain regions of northern and central Colorado in July - August, '71.

The scientific research team, headed by Cmdr. Richard S. Brownes of UEC, will explore the "Forbidden" world of subterranean caverns deep below the crust of the earth—a world where freezing temperatures and icy ceilings play host to lost kingdoms unseen in color—and a world, where faceless shadows and narrow passageways seem to guard its entrances from all intruders.

"This mission is strictly for scientific investigations," Virginia M. Parker, director of research said. "During our underground exploration, we will collect rock and water samples for geological study."

To record their efforts, the entire expedition will be filmed and documented. The film will be shown in schools interested.

"To accomplish the broad goals of this mission we are utilizing skilled and experienced personnel, and the best equipment obtainable for a safe and efficient exploration of each archaeological site," said William Mutart, project engineer of the program. "All sites, as well as likely leads have been charted and surveyed in preparation for impending excavation during Project Groundhog."

Other project activity plans during their assignment include: probing old mining sites and ghost towns located in desolate areas of Colorado's almost forgotten "trailways." The mission will also serve to evaluate survival techniques that will be used in a future expedition to Death Valley.

TWA out of Metropolitan Airport, will fly the entire team to Denver, Colo. where jeeps and trailers will transport personnel and equipment to their selected

destinations. Members involved in Project Groundhog are: Mary Mutart, communications; Virginia M. Parker, director of research; Albert W. Brownes, staff photographer; William Mutart, project engineer; and Richard S. Brownes, operations commander.

And what of the rewards so gallant a few? Perhaps success will not "favor" this expedition; and reality only to fade into obscurity among dusty cobwebs and shadows of an old mine shaft or a darkened cavernous tunnel?

Any event, a research team of devoted individuals, will descend into strange sepulchers of unspeakable beauty in their quest for answers that are hidden within these frozen sanctuaries where peace and darkness is eternal. And the silence, forever demanding . . .

Local Woman's Grandson Graduates

Glenn Duncan, son of Mr. and Mrs. Charles Duncan of Saginaw, is a member of the graduating class of Arthur Hill High School. Commencement exercises were to be held Wednesday, June 8. Glenn is a grandson of Mrs. Altha Heric of Grayling, Harold Duncan of Roscommon, and Mrs. Marie Bolton of Auburn. He is employed at the Saginaw Y.M.C.A. as Youth Supervisor.

Jack Pine's Stump

Way back in September of 1955 a wee, frightened boy went to his very first day of school at St. Mary's here in Grayling. Throughout the following years he had his good days and his bad ones, and for a time it seemed the bad ones outnumbered the good. He got his share of bruises and bumps and bloody noses and notes from the teacher. He was always concerned about the "other fellow" and would scrap if someone unfortunate was picked on. He ignored, or tried to ignore, those who picked on him because of his stammer. "I just pray for them," he explained to his indignant father. A week ago Sunday he graduated from college. For various reasons, I couldn't be there. I wanted to, though. Badly. But we talked on the phone. By Grayling standards, he would probably be a "long hair". By the standards of his college he's a conservative. Sure, he's been to Washington during the "protests", but mainly as an observer and "to be counted", for his concern for people is still as great as it was sixteen years ago. And I bless him for it. While his stammer is long gone, and he doesn't "pray" in the traditional sense for others, he takes what is given him and probably feels sorry for those who are violent and abusive. Is he coming home this summer? No, he's going to work for a construction firm. And while his education isn't geared towards that sort of work, he does like it. And after 16 years in schools, if that's what he wants, then old dad figures he's pretty well deserved it.

Heard a bitter and frustrated mushroom hunter the other day say, "There's more pretty girls in Grayling than there are mushrooms in the County." Still trying to figure out what he meant.

Random Notes: There's a well-organized plan afoot to establish a Mental Clinic for Crawford, Roscommon, Missaukee and Wexford Counties. Two offices: one here and one in Cadillac. Seventy-five percent State funds to pay salaries for psychologist and other technical people needed. Balance will have to be supplied locally. It's a good deal for the community and will provide many needed services which we don't normally associate with the term "Mental Health."

Ground breaking for the new Holiday Inn will start July first. It'll be located where Swanson's Cabins are now — just south of the Penguin Inn. 120 units, plus a dining room and possibly a cocktail lounge.

In some ways a wedding ring is like a tourniquet: it stops circulation.

Concerned about the behavior of canoeists on the river? Well, a bill was introduced into the State Senate awhile ago. Bill 827 which would amend the Marine Safety Act 303 by adding something called Section 80. Section 80 is noncontroversial, and merely says it would be a misdemeanor to knowingly jostle or tip over another person's vessel. It should be passed, but is lost in Committee. Write Lou Cramton or John Toepp asking for some action right away. Every letter helps.

— JP —
While on that subject, a whole lot of people complain about the Sheriff's Department not "doing anything" about the way people act on the AuSable. Well, this isn't so. It's the "good citizens" who aren't doing anything. To date the Sheriff's Department has gone out on 18 separate cases where a citizen called in to complain . . . and then refused to sign a complaint. This ties official hands unless the cops see the act going on. Citizens have responsibilities, too. They ought to exercise them.

A friend down on the South Branch has the following sign on the porch of his fishing lodge. "Since there is six times as much water as land on earth, any fool can plainly see the Good Lord meant for man to fish six times as much as he works . . ."

Letter To The Editor

Dear Whitey,

I am disappointed to think that there are people that have selfish thoughts like the letter written last week by Marv Scheuenstuhl of Bay City.

The treaty the white people made with the Indians was to include no hunting license and also, Indians are not to pay any taxes. You say there will be a great slaughter of deer? Indians kill deer because they need the meat. They cannot afford the prices that white men charge. The majority of slaughtered deer comes from the white man, target practicing. How about American history. The white man never paid the Indians for the State of Michigan. The ground you live on has not been paid for. Why don't you white people pay what you owe to the Indians.

You check on history and you will find that the wars with the Indians was started by the white people pushing them back.

What sacrifice have you made other than to take the game that belongs to the Indians? Who has polluted the land and the streams. It sure has not been the Indians. The white man has broken every treaty they have ever made with the Indians. I suppose you are proud of that.

I could go on, but I would suggest to this man that he finds out the truth before he starts to condemn.

They took our land, now they want to take our hunting and fishing rights, also. How about Buffalo Bill? He slaughtered the buffalo for the hides, and left the meat to rot. I suppose you are proud of him.

The Indians are named after the birds and animals, Running Bear, Black Elk, Gray Eagle, etc., because they love nature. What does the white man do? Have doe season so they can make money from these animals. Why don't you think?

Explain Tax Renewal Vote

Dear Voter:

The annual school election will be Monday, June 14, and the polls will be open from 7:00 a.m. to 8:00 p.m.

Besides electing two trustees for the Board of Education, you will be asked to renew 5 mills for 5 years for operation.

This is a very important decision for all parents because it will effect the education of your children.

We are all striving for one common goal and that is the best possible education for our children. With this in view, I would like to enumerate the need for the renewal millage:

This is not an increase in operation but only a renewal of the five mills you have been paying.

We are receiving 6.5 mills from the allocation board and 3.5 mills was voted in 1968 for a total of 10 mills. This year the State required 12 mills of local support to participate in State Aid.

If the millage proposal is turned down June 14th, we will have to vote again in August.

Our enrollment is increasing. There are 1,846 children in school this year and we anticipate an enrollment of over 1,900 for next year.

Be sure to vote on June 14th!
Joseph Stripe, Supt.
